New Functions^

“User Pool” function

It lets Company Administrators manage licence/permit applications flexibly within a user pool, such as assigning and changing which staff to handle individual processes, thereby enhancing operational efficiency.

“Batch Upload” function

It lets users input in one go multiple applications of licences/permits, saving time and cost.

Support for “iAM Smart”

Users with “iAM Smart” can register with and log in to the TSW conveniently.

^ Some new functions are only applicable to certain trade documents
